

# TITAN by utility™

## RAPIDLY OBSERVE, VALIDATE, AND RESPOND

Expand your situational awareness and solve crime faster with access to more live or recorded video through a single source, anytime, anywhere.

Integrate multiple fixed, public, and mobile cameras into one comprehensive view to improve incident response, crime resolution and ultimately increase public safety.

### GAIN MORE VALUE FROM EXISTING FIXED CAMERAS:

Real time streaming.  
Playback and clip relevant video.  
AI tools.

### SEAMLESS DEMS INTEGRATION:

Full digital evidence and case management.  
Maintain evidence chain of custody.

### PAY AS YOU GROW PRICING:

Flexible pricing structure aligns with camera network size.  
No equipment to purchase.

### SINGLE PLATFORM:

Fully integrated with all Utility services including live mapview, bodworn, in car video, license plate recognition.

- Utility provided media appliance enables access to existing camera networks
  - All hardware provided with service
  - Appliance identifies available cameras during install
  - AI driven tools help identify potential video of interest
  - Interface allows video playback, clipping, and transfer to cloud
- Consolidate cameras from multiple sources into a single platform
- Increase your agency's situational awareness when you need it most
- Increase your evidence pool with additional information from citizen camera registry, citizens at the scene or in an incident area
- Prepare evidence with DEMS functionality within the same application
